Gary Pons's deluxe pianos

author: BB

★★★★★

The designed pianos of the [Plexart Gary Pons's series](#) brought the French world of piano up to a new era. Handcraft in a work of art, the translucence and the beauty of their features rivals with the most harmonious and round sound and faultless quality of play. Those deluxe pianos combine a master craft and a unique design.

The plexart pianos series manufactured in the way of the greatest acoustic traditional brands provides numerous great instruments in which the beauty of aluminium is combined with Altuglass. Those are unique works of art which belong to a new era of piano conception. The finest handcraft confers on them a mysterious and fascinating design. They are constantly evolving in order to reach the excellence that only can satisfy the most demanding musicians. A mere trial shows at once the main qualities of Plexart pianos : the magic of a powerful instrument which got deep bass, rich and round middle and pure and subtle trebles. Because of constantly increasing orders (from Paris, Toulouse or Nice), the series has widened. Initial models still exist and yet they are basis for new designs. For instance, the classical SY 112 does exist in an S and R version. Grand piano series, which provided a single model (SY 185) in the first place, provides now SY 186, SY 213 and SY 275 Concert.

Pricing for SY 185 Gary Pons starts at €35,900.
